

Salary & Hiring Guide 2026

Indicative US pay ranges across every major industry, built from public labor data and market salary guides.

How to use this guide

These are indicative 2026 national ranges, not job offers. Actual compensation varies by metro, years of experience, certifications, company size, and total-comp structure (base, bonus, commission, and equity). Use them to benchmark an offer or a budget, then move fast: the strongest candidates are passive and accept offers within 2 to 4 weeks.

Sources and method

Ranges were compiled from public labor data and published market salary guides, including the U.S. Bureau of Labor Statistics, Robert Half, BCG, Glassdoor, ZipRecruiter, and Payscale. Figures are rounded ranges meant for benchmarking, not precise quotes.

How BEG helps you hire

We place permanent hires in 23-35 days at roughly 50% less than contingency, with an 86% fill rate on active searches and a 45-day replacement guarantee. We are a milestone-based placement service, not a staffing agency.
